MINIMUM CREDITABLE COVERAGE STANDARDS

For Tax Year 2024 a health insurance plan meets Minimum Creditable Coverage standards if it has:

- Coverage for a comprehensive set of services (for example: doctor visits, hospital admissions, day surgery, emergency services, mental health and substance abuse, maternity and newborn care, radiation and chemotherapy, and prescription drug coverage)
- Doctor visits for preventive care, without cost-sharing
- A cap on annual deductibles of $2,950 for an individual and $5,900 for a family
- All services must be provided to all of those covered (for example, a plan that covers dependents must extend maternity services to them)
- For plans with up-front deductibles or co-insurance on core services, an annual maximum on out-of-pocket spending of no more than $9,450 for an individual and $18,900 for a family
- No caps on total benefits for a particular illness or for a single year
- No policy that covers only a fixed dollar amount per day or stay in the hospital, with the patient responsible for all other charges
- For policies that have a separate prescription drug deductible, it cannot exceed $360 for an individual or $720 for a family
- No cap on prescription drug benefits

If the health insurance plan does not cover one or more of these services, then the plan is not MCC compliant. If you do not know if the health plan provides these services, please contact your human resources department or health benefit department or contact the health insurance carrier directly.

You automatically meet MCC if you are enrolled in:

- Any Qualified Health Plan purchased through the Health Connector or directly from a carrier, including a Health Connector plan, a ConnectorCare plan, or a catastrophic plan
- A MassHealth plan (except MassHealth Limited)
- Medicare Part A or B
- A qualified Student Health Insurance Plan (SHIP) offered in Massachusetts or another state
- U.S. Military health benefits, including TRICARE and U.S. Veterans Administration healthcare programs
- Health arrangement provided by an established religious organization comprised of individuals with sincerely held religious beliefs that meets the required standards under 956 CMR 5.00
- A medical care program of the Indian Health Service or a tribal organization
- Peace Corps, VISTA or AmeriCorps or National Civilian Community Corps coverage
